

ENHANCED ONLINE INDUCTIONS

MSite's Online Inductions have recently been updated to bring even more **capability**, accessibility and **ease of use**. What's more, our inductions platform can now be delivered in over **25+ different languages**.

Enhanced Online Inductions

Create courses

Create comprehensive induction materials based on **company**, **site**, **trade**, and **contractor** specifics, as well as **role-specific** inductions for your workers.

By having them complete these materials before their arrival on site, you ensure a workforce that is **well-prepared**, **informed**, and **properly inducted**.

Easy upload

Effortlessly upload PowerPoint slides, PDFs, images, and videos directly onto MSite's Induction Building Platform for streamlined content management.

Drag and drop

Enhance your inductions by precisely customising them for different site requirements with the integrated MSite course editor. Add and modify **questions**, **videos**, **images**, **PDFs** and **PowerPoint** slides directly within MSite.

Translate automatically

Enhance on-site compliance and safety by automatically translating your inductions into over **25+ languages**, enabling you to accommodate a more diverse and multilingual workforce.

Deliver inductions in 25+ languages

Completing an online induction **prior to arrival** on site equips workers with **essential knowledge** and **safety protocols**, ensuring they are well-prepared and can contribute effectively from day one.
