MSITE *SOCIAL VALUE*

Carbon Emissions Reports

Allows users to run carbon emissions reports for **Site Delivery Management** on the MSite system.

Site Delivery Carbon Emissions

➢ Select the **Sustainability** option in the MSite toolbar on the left-hand side of the screen.

You have 2 options to show varying reports relating to **Carbon Emissions** depending on the level of detail required:
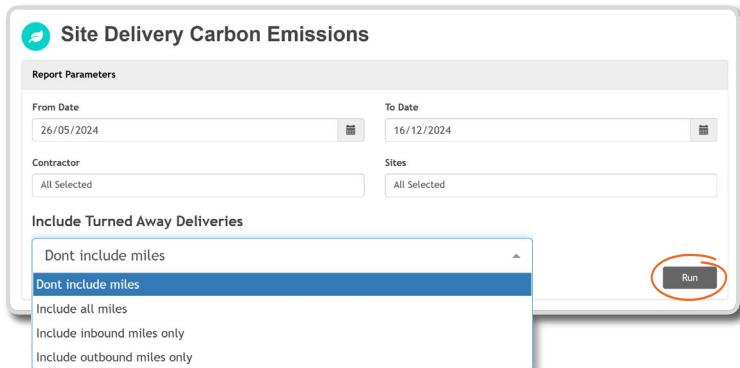

- **Site Delivery Carbon Emissions**
- **Site Delivery Carbon Emissions Summary**.

Site Delivery Carbon Emissions:

Can be filtered by:

- **Date**
- **Contractor**
- **Sites**
- **Include Turned Away Deliveries**
  (See image for available options)

➢ Then click [Run] to run the report.

This report provides in-depth information such as:

- **Contact Name**
- **Miles In, Out and Total**
- **CO2 Class**
- **Emissions Rating**
- **Incoming, Outgoing and Total CO2 data**

Site Delivery Emissions

Date	Contractor	Site	Method	Contact name	Miles In	Miles Out	Total Miles	CO2 Class	Emissions Rating	In CO2 Kg	Out CO2 Kg	CO2 Kg
06/11/2024 09:00	Amber HRS	Site 01 - Liverpool	Delivery	Amber Forbes	1.00	1.00	2.00	Drive	0.326410	0.33 Kg	0.33 Kg	0.65 Kg
