MSite Dashboard.

Getting familiar with the MSite Dashboard.

MSite Dashboard.

Key features:

When you log in to **MSite**, the **Dashboard** is the first page you will see. The data displayed can be filtered by site at the top right-hand side of the screen. The Dashboard displays:

- Total number of **Workers**
- **Top 10** Contractors
- **Health and Safety** Roles
- Other **site critical** information
- In **real time** data

You can also access related **reports** directly from the display by clicking the following arrow at the **top right** of the tile.
