

Briefings

Track Safety Briefings with Confidence.

Saves Time & Money

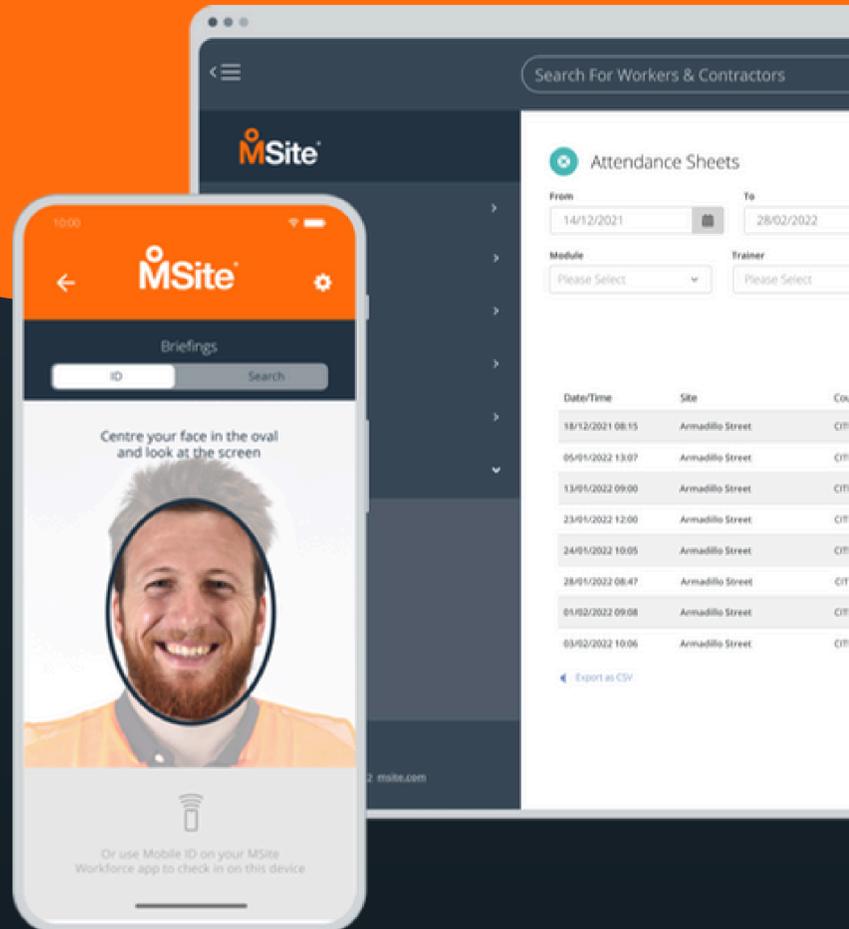

Raises Site Standards

Reduces Risk & Errors

From daily activity briefings and toolbox talks to safety critical briefings and site orientations, MSite Briefings gives you a lasting digital record of who has attended which briefings, when they took place and what was covered in each session. It's the new must-have tech solution that every safety toolkit needs.

Briefing accreditations

Email notifications are auto generated when a supplier submits a booking requests or when a booking request is accepted or rejected.

Automated Attendance Tracking

Track and record worker attendance seamlessly during briefings for accurate compliance reporting and audit readiness.

Available offline

Content can be downloaded in advance and attendance captured whilst offline/ The device will then sync to MSite once connected to the intranet.

Insightful Reporting

Access key metrics like contracted vs. actual hours, payable hours, and productivity to make informed decisions.

Block Access

Its easy to see if any invited workers did not attend a session, and if you use MSite for access control you can even block their entry until they attend the session.

Customizable Briefing Content

Tailor briefing materials to specific sites, roles, or projects to ensure relevant and effective communication.
