

# Face Mini

Smart Access.  
Precise Tracking.

**Saves Time  
& Money**

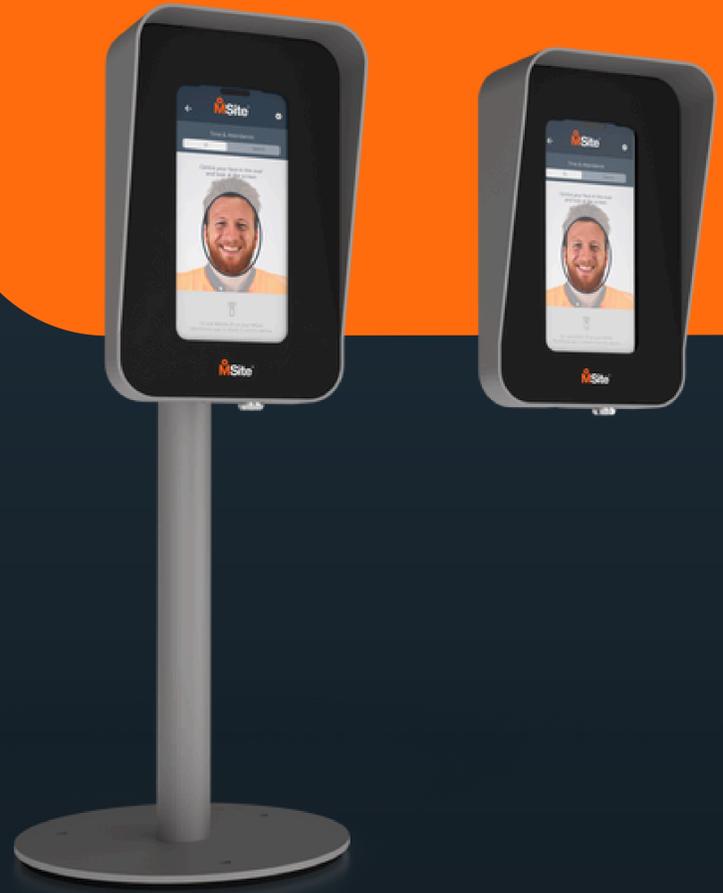

**Raises Site  
Standards**

**Reduces  
Risk & Errors**

MSite Face Mini is a flexible facial recognition unit for registering workers on-site to track time and attendance.

## Easy Enrolment

Quickly create biometric profiles so workers can scan themselves on site, allowing fast and seamless access every time.

## Anti-Spoofing Technology

3D depth-sensing camera prevents recognition of photos, stopping fraudulent entries and keeping your site secure at all times.

## Two Mounting Options

Use with a desktop stand or wall mount; durable casing adapts to various sites and installation needs.

## Quick, Reliable Capture

Facial scans take under 0.5 seconds, enabling fast clock-ins and outs without bottlenecks or unnecessary delays.

## Hassle free set up

Built in Wi-Fi and 4G connectivity which means its easy to connect to the internet and prevents technical issues if the Wi-Fi was to drop out.

## Offline Operation

Face Mini works offline and syncs with the system once reconnected, requiring internet access at least every 24 hours.
