

Full-Height Turnstiles

Strong. Secure. Reliable.

**Saves Time
& Money**

**Raises Site
Standards**

**Reduces
Risk & Errors**

Our full-height turnstiles offer security for the perimeter of your site and keep your team moving – whether large or small. Withstanding tough weather and operation conditions with 3 and 4-arm designs, this turnstile system can be assembled in either a single or double size.

Smooth, Secure Access

CE-compliant Rotalock system allows controlled, two-way rotation for safe, efficient entry and exit on your site.

Built to Last

Zinc-plated, corrosion-resistant, and fitted with quiet, self-lubricating components for durability in tough conditions, turn after turn.

Designed Your Way

Suitable for indoor or outdoor use, with over 10 years of engineering refinement for flexible, reliable performance.

Easy to Integrate

Seamlessly connects with access control systems for secure, streamlined entry management across your entire site.

Safety, No Matter What

Choose auto-lock or auto-unlock on power failure – so your access control works even when the power doesn't.

Single or Double Option

Available in single or double-width setups with 3- or 4-arm configurations to suit your site's layout and footfall.
