

Half-Height Turnstiles

Fast, Secure Entry for Indoor Sites.

**Saves Time
& Money**

**Raises Site
Standards**

**Reduces
Risk & Errors**

Our half-height turnstiles are suited to indoor use, offering a reliable and fast entry solution for your site, welfare areas or site office. Fully utilise your half-height turnstile by combining it with one of our biometric readers for secure access control that enables you to report on time and attendance while blocking unauthorised persons.

Silent operation

The stainless steel 3-arm rotor runs smooth and quiet, providing uninterrupted access for busy environments.

Fire alarm integration

Integrate your fire alarm system to our turnstiles to use free rotation when triggered.

Enticing extras to boost your security

DDA compliant pass gate is also available in addition to directional indicator lights.

Compact and Practical

Ideal for tight indoor spaces like site offices and welfare areas, offering controlled access without taking up valuable room.

Built for High Footfall

Designed to handle frequent use in busy zones, delivering reliable performance day in, day out.

Easy Installation

Simple to install and configure, making it a hassle-free addition to your site's access control system.
