Pre-Registration

Work-ready from day one with MSite Pre-Registration.
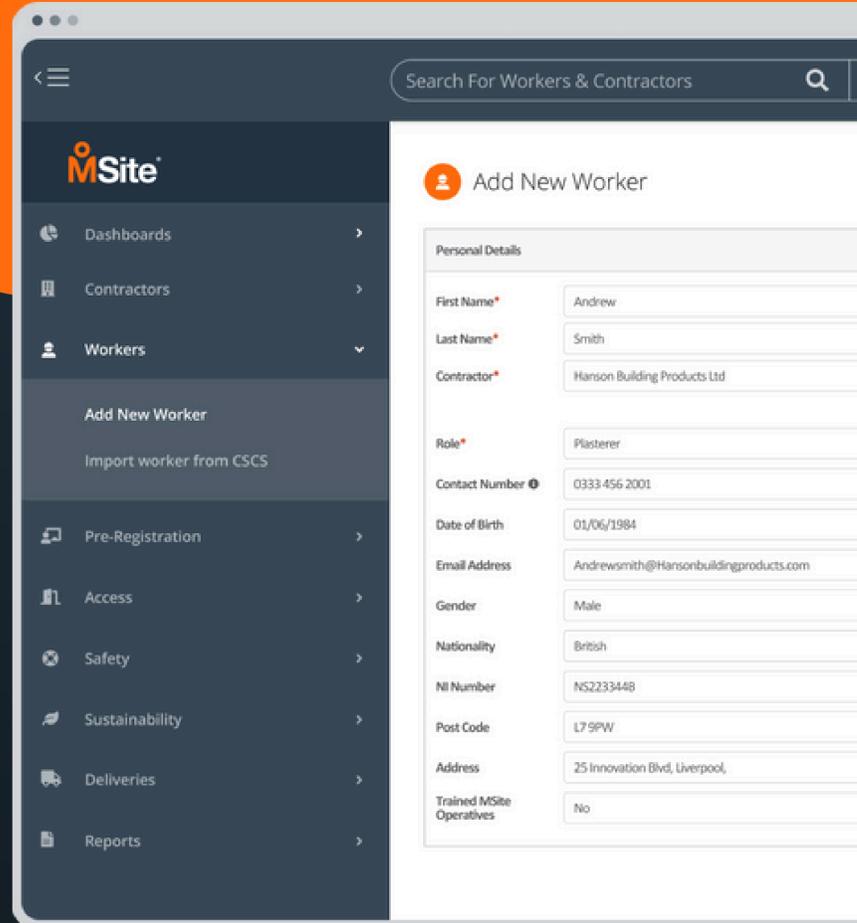

Saves Time & Money

Raises Site Standards

Removes Modern Slavery

Save time and money by having your workers register for MSite's pre-registration software online before their first day, so they can begin work faster while having all the important information they need to remain safe and productive.

Streamlined Onboarding

Digitally register workers before they arrive on site, speeding up the onboarding process.

Lasting digital record

Workers' profiles are securely stored on our cloud-based system, creating a lasting digital record that meets all essential GDPR rules.

Digital Worker Passport

Automatically create a digital worker profile, including verified H&S credentials.

User friendly interface

Thanks to MSite's super-easy platform, workers are more likely to complete their details. Subcontractors can issue invitations quickly, reducing response times.

Save Time on Admin

Worker data is securely stored in the cloud, reducing manual input and meeting data privacy standards.

Improved Workforce Visibility

Gain real-time access to accurate worker data across all your sites, helping you stay compliant and make informed decisions.

MORGAN SINDALL

Morgan Sindall Group's fit-out division needed portable hardware solutions to match the fast pace of their projects. With MSite's pre-registration system, **93%** of workers registered before arriving on-site, **saving a total of 17,230 hours** and ensuring compliance from day one.

Be safe. Be productive. Be one.
