

Time and Attendance

Keep your site secure with real-time worker tracking.

Saves Time & Money

Raises Site Standards

Reduces Risk & Errors

MSite's construction time and attendance tracking system monitors worker arrival and exit time on site via a mini facial recognition station or using location check-in via a construction site attendance app. This can be easily accessed via smartphone, letting contractors view workforce operations remotely.

Accurate Attendance Tracking

Match digital timesheets with verified attendance data to ensure workers are paid correctly for hours spent on site.

Live Operational Insights

Access real-time dashboards displaying key metrics such as attendance, supervisor ratios, and first aider coverage for better site management.

Boost On-Site Security

Verify worker identity with MSite Face Mini's biometric technology for a trusted and secure workforce.

Remote Workforce Visibility

Monitor site attendance and workforce activity from anywhere, giving project teams greater flexibility and control.

Streamline Project Delivery

Eliminate paper-based admin with digital processes and gain real-time insights through automated reports and live site data.

Compliance & Audit Readiness

Maintain accurate, digital records that support audits and help meet regulatory and contractual requirements.

The MSite system has revolutionised the way we manage time and attendance on our sites. It has proven to be a great fit for all our supervisors who can now easily keep track of workers with the click of a button.

Gary Walsh, Managing Director. R Collard.
