

Workforce App

Log In, Check In, Stay Informed.

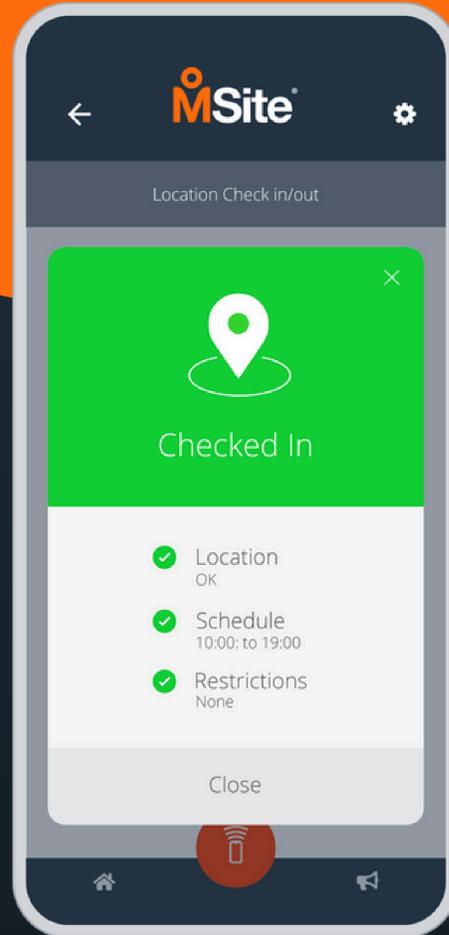

Support Social Value

Saves Time & Money

The MSite Workforce App offers site workers a convenient way to log time and attendance while receiving real-time notifications from supervisors and site teams.

Quick Setup

Workers download the app from the App Store or Play Store and easily sign into their site.

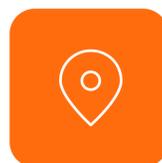

Team Communication

Send instant or scheduled notifications to all or specific worker groups, with read and response tracking.

Fatigue Management

Capture per-shift travel details when paired with the Fatigue Management module.

Location-Based Check-in

Workforce app users record time and attendance via biometric and GPS validation, wherever they are.

User-Friendly

Designed for ease and intuitiveness, making the app simple for everyone to use.

Accessible to All Workers

Available on personal smartphones, enabling direct notifications and location check-ins for every worker.
